Accommodation Services: Power and Network outage 30th May - 3rd June 2011

What is happening?
The electrical transformer which powers all Accommodation Services buildings is being replaced. This will involve scheduled power outage whilst various buildings are swapped over from the old transformer to the new system.

Why now?
Accommodation were unable to schedule this change to occur earlier and it needs to be completed as soon as possible. The existing transformer is running at full capacity and with the increased electrical load as winter approaches, these works need to be carried out to prevent any unplanned outages.

How will this affect me?
Refer to the chart below, and check your location against the day and time. If you require power or network services during the outage period, you can see locations which will remain online. Due to the power disruptions phone, internet and network services will be unavailable in some locations.

What about the food in my fridge?
If you are can refrain from opening fridge/freezer doors during and shortly after the power outage period, no food should spoil and it will remain cool. Please contact the office if you have any special requirements and staff will do their best to assist.

How can I contact the office during these periods?
Please contact us on 03 6226 6000 from a mobile, help phone or central phone in an area with power or phone services. Alternatively come down and visit us in the office.
